# Practical Experience to Our Customers

The writer has had 40 years of practical experience, 6 years in greenhouses, 14 years in the Seed and Bulb Trade, and now 20 years in business for himself.

For the past 25 years, I have regularly attended the flower shows and Conventions, meeting most of the growers, swapping ideas as to what to grow in the best varieties, etc.

What I have gathered from these contacts is always at the disposal of our customers.

Your inquiries appertaining to your problems as to the best commercial varieties to grow are welcome and will have my careful and personal attention.

WHOLESALE  
GENERAL CATALOG

• 1931 •

Plants • Cuttings • Bulbs • Seeds  
Insecticides • Fertilizers • Etc.

*Important Information*

**W**E recommend all shipments to go by express, except very small shipments which can be readily mailed. Claims cannot be collected when cuttings are shipped through the mail, hence we recommend express, because a claim can be entered for damages through delay, etc. We mail small quantities only up to May 1—it is unsatisfactory to mail cuttings when the warm weather sets in.

**Postage.** 100 cuttings, add 15c. extra for postage. For each additional 100, add 5c. more. For *Special Handling Service* (which we highly recommend), add 25c. for each shipment—it's worth while.

**Claims for Damages.** You must enter a claim against the express company immediately. According to law, the transportation companies are the agents of the buyer, and when goods are delivered to and accepted by such agencies, the shipper's responsibility ceases. We will, however, gladly assist you in making your claim if you advise us.

**Prices.** All prices in this catalog are subject to change without notice.

*We sell 250 of a variety at the 1000 rate; less than 100 of a variety, unless otherwise quoted, add 10% to 100 rate. No orders for less than 25 of a variety.*

**Terms.** 60 days net, less 2% cash in 10 days, or less 3% cash with order. Postage and express charges must be paid by the customer.

**Non-warranty.** We endeavor to send out only the very best quality of cuttings, plants, bulbs, seed, etc., and do our utmost to assure you of stock true to name, although we do not guarantee this. Neither do we in any way guarantee the success of the grower purchasing the stock offered in this catalog. In the event of the stock not being true to name, our liability is limited to the invoice value at the time of shipment. If our goods are not accepted on these conditions, no sale is made thereof and you must return goods at once.
